Key test facts: Check-in 15:00 | No unattended luggage storage | Key-box code 7314 | Third floor / no elevator | Check-out 11:00.

1. Standard arrival

- Standard check-in starts at **15:00**.
- The property uses self check-in via a building key box.
- Access details should only be given when the active booking corresponds to BA001.

2. Early arrival and luggage

- Early check-in is normally unavailable because cleaning continues until 14:30.
- There is **no unattended luggage storage** in the building.
- Any exception must be confirmed by the host.

3. Building entrance

- Use the dark-green entrance door marked BA001 in the demo dataset.
- The key box is fixed inside the small vestibule.

4. Key-box procedure

- Demo key-box code: **7314**.
- Take the brass building key and the silver apartment key.
- Scramble the digits after closing the box.

5. Apartment access

- Climb to the **third floor**; there is **no elevator**.
- The apartment door has a small blue BA001 label beside the frame.
- The silver key opens the apartment door.

6. Standard check-out

- Check-out is by **11:00**.
- Close windows and balcony doors.
- Return both keys to the building key box.
- Do not leave keys inside the apartment.

7. Late check-out

Late check-out is not guaranteed and must be escalated unless the reservation data explicitly states an approved later departure.

8. Access problem

If the building door or key box cannot be opened after confirming code 7314, escalate to the host. The assistant must never suggest the PV001 code or guess another code.
